

AALBORG WHITE®

**Beauty that Stands the Test of Time
– Durable Terrazzo Based on AALBORG WHITE®**

AALBORG WHITE®

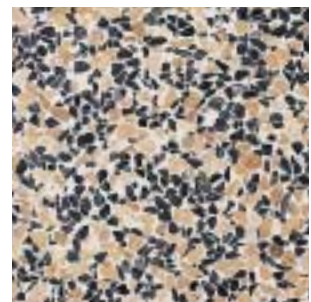

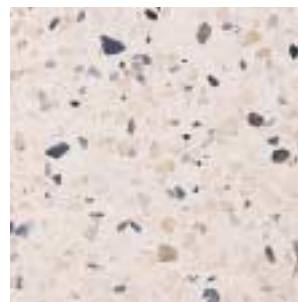

- Nature's own raw materials
- refined by supreme technology
- used for beautiful and functional solutions

An Ancient Technique with a Modern Appeal

It has been known for centuries. It still applies: Terrazzo is a terrific product. And AALBORG WHITE® is a terrific cement for making terrazzo. The hard-wearing properties of terrazzo are enhanced by the exceptionally high strengths of AALBORG WHITE®.

The cement's high reflection allows the production of very white terrazzo when combined with light aggregate. Add pigments and you can create exciting patterns in very bright, clear colours made possible thanks to the superior whiteness of AALBORG WHITE®.
