

WEWORK WEIHAI LU UNITED OFFICE IN SHANGHAI, CHINA

CAST-IN-SITU TERRAZZO APPLICATION: AALBORG WHITE® P.W. 52.5

PROJECT DESCRIPTION

WeWork Weihai Lu is nestled in a turn of the century brick building; a former opium factory and artist residence. This building is surrounded by an old residential district in the heart of Shanghai.

The central atrium is surrounded by the heritage red brick façade. A curved in-situ terrazzo tray made with AALBORG WHITE® cement was inserted to define the space, pastel diagonal strips in blue, green, pink and grey wrap the terrazzo floor and wall, creating a hardscape carpet. A bronze structure is suspended above the terrazzo perimeter wall, hanging mirrors, artwork, shelving and lighting.
